GO TO THE RESCUE

Don't Wait 'till It's Too Late--Follow the Example of a Bristol Citizen.

Backache is aching back
If it keeps on aching, trouble may come

Often it indicates kidney weakness.
It's a neglect the kidneys' warning,
Look out for urinary disorders
This Bristol citizen will show you how to go to the rescue.

Mr. Fydam, 680 Linden St., Bristol, Pa., says "I have had no need of Doan's Kidney Pills or any other kidney remedy since I publicly recommended them some years ago. The cure they made at that time has been permanent For years I had severe attacks of kidney trouble, together with headaches and backaches. My little was a great deal worse when I caught cold I used doctors' medicine but was not helped. One day when telling a friend of my case, I was advised to give Doan's Kidney Pills a trial I did so, and was delighted with the results Four boxes of this remedy removed my trouble."

Almost every city in the country has its Young Men's Christian Association, which stands ready to serve to the extent of its ability any young man who may come to them. To its members the Association provides social parlor evening educational classes, entertainments, lectures and practical talks, gymnasiums, employment bureaus, boarding houses registers, classes for Bible Study, Young Men's Meetings etc etc These privileges are offered at so small a fee that any young man can afford them. There are now 189 Associations in cities, towns colleges and among railroad men in the State of Pennsylvania besides Corresponding Members in many of the smaller places

In response to a very general demand for the extension of the Association work into the smaller towns and villages and rural sections of the State the State Committee is undertaking the inauguration of County Work which federates the villages and rural communities of a county and secures a County Secretary to lead in work for men and boys The Corresponding Member co-operates in this extension of the Association's activities in aid of local young men

The State Committee has recently appointed Charles S. Wood as Corresponding Member for Cornwells, Box 01, Pa He will gladly give advice or information about work for young men that may be in his power

Scandalous Misuse of Mails.

Hatboro Public Spirit

Thomas K Gober, Jr., Washington party candidate for congress in the Bucks-Montgomery district, made a good point when he charged Representative J Hampton Moore with deliberately misusing the mails for sending out campaign literature free of charge

In nearly every mail the Spirit office receives a miscellaneous lot of campaign literature franked free of postage by Congressman Moore This is a scandalous misuse of the mails for political purposes

Every time Congress meets there is cry that the postoffice department does not pay, and legislation is threatened to raise the rate upon second class mater

How can the postoffice department pay if tons upon tons of free documents are carried for politicians?

Plain people pay their own postage bills, politicians should do the same.

GO TO THE RESCUE

Don't Wait 'till It's Too Late--Follow the Example of a Bristol Citizen.

Less the aching back
Heed the cups on aching, trouble may ...
Often it indicates kidney weakness.
It's a neglect the kidneys' warning,
Look out for urinary disorders
If a Bristol citizen will show you how to go to the rescue
Mrs Isdom, 580 Linden St., Bristol says I have had no need of Doan's Kidney Pills since any other kidney remedy since I publicly recommended them some years ago Recent they made at that time has been permanent For years I had severe attacks of kidney trouble, together with headaches and backaches. My trouble was a great deal worse when I caught cold I used doctors' medicine but was not helped One day when telling a friend of my case, I was advised to give Doan's Kidney Pills a trial I did so and was delighted with the results. Four boxes of this remedy removed my trouble For sale by all dealers Price 50 cents Foster Milburn Co., Buffalo, New York, sole agents for the United States

Work for Young Men.

The State Young Men's Christian Association of Pennsylvania is pursuing an admirable plan by which young men in towns and villages without associations may be recorded as to the advantages of the organization The State Committee is putting in these places a representative known as a Corresponding Member His chief duty is to keep the State Office informed when any young man leaves home to settle elsewhere for any purpose whatever The State Committee forwards this information to the Association or church of the place in which the young man is to locate He is met cordially and helped in finding a congenial home and in securing employment, and introduced to the helpful influences and Christian fellowship of this new environment

The Corresponding Member will also arrange for meetings in the interest of the work, the object of his coming, and furnish information regarding Association work Almost every city in the country has its Young Men's Christian Association, which stands ready to serve to the extent of its ability any young man who may come to them To its members the Association provides social and religious meetings, educational classes, entertainments, lectures and practical talks, gymnasiums employment bureaus, boarding houses registers, classes for Bible Study, Young Men's Meetings etc etc These privileges are offered at so small a fee that any young man can afford them There are over 187 Associations in cities, large towns and colleges and among railroad men in the State of Pennsylvania besides 158 Corresponding Members in many of the smaller places

In response to a very general demand for the extension of the Association work into the smaller towns and villages and rural sections of the State the State Committee is undertaking the inauguration of County Work which federates the villages and rural communities of a county and provides a County Secretary to lead in work for men and boys The Corresponding Member co-operates in the extension of the Association's activities in aid of local young men

The State Committee has recently appointed Charles S Wood as Corresponding Member for Cornwells, Mud Run, Pa He will gladly give any further information about work for young men that may be in his power

On Slender Bases.

St Herbert Tree, the amount of whose correspondence is doubtless overwhelming has been the recipient. It is said of some extraordinary letters from them three samples are selected for quotation each from a member of the fair sex The first runs Dear Sir Herbert—I don't know you but I have four girls from Switzerland home for the holidays It would be a great treat if they could see your play But that would be rather expensive Will you please send us five stalls I hope you won't think this is very bare faced." The second lady writes Although I am a stranger to you it would be so helpful if you would send me £2 12s. 6d." The third is modest for a couple of stalls and concludes invited to say why she made the claim sent what she evidently thought to be an all sufficient reason. "Sir father," she wrote, "knew Charles Dickens!"

Scandalous Misuse of Mails.

Hatboro Public Spirit

Thomas K Ober Jr Washington party candidate for Congress in the Bucks-Montgomery district made a good point when he charged Representative J Hampton Moore with deliberately misusing the mails for sending at campaign literature free of charge

In nearly every mail the Spirit office receives a miscellaneous lot of campaign literature franked free of postage by Congressman Moore

This is a scandalous misuse of the mails for political purposes

Every time Congress meets there is cry that the postoffice department does not pay and legislation is threatened to raise the rate upon second class matter

How can the postoffice department pay if tons upon tons of free documents are carried for politicians?

Plain people pay their own postage bills, politicians should do the same

A VOTE FOR OBER.

It is hard to conceive by what process of reasoning a voter who intends to vote for Theodore Roosevelt can arrive at the conclusion to also support Oscar O Bean for Congress Mr Bean is an employee of Joseph R Grundy, in charge of the latter's newspaper the Doylestown Intelligencer Mr Bean, as in his employer, is absolutely opposed to the principles represented by Theodore Roosevelt's candidacy

If Mr Roosevelt is elected, and we believe he will be, and Mr Bean should unfortunately be successful also, the latter would aid in every manner possible to tie the hands of the Roosevelt administration

We do not believe the voters of the Eighth district are going to elect Mr Bean We think the people know that he is the representative of one man, an arrogant politician at that

Thomas K Ober, Jr, the Washington Party candidate for Congress is opposed to Mr Bean, if elected [illegible] will be guided solely by what tends to the public welfare He will be an earnest supporter of the Roosevelt administration He is a clean cut citizen, a kind and genial gentleman and is of Congressional calibre He will be the tool of no man, faction or combination

Vote for Thomas K Ober and the straight Washington ticket, which includes the candidacies of Messrs Burton and Walters the progressive candidates for the Legislature

Beware of the "fake" tickets on the ballot next Tuesday at the election. The "Bull Moose and Roosevelt Progressive party tickets were put on the ballot by enemies of the real Roosevelt cause There is but one real Roosevelt progressive party in Pennsylvania It is the Washington party

William H Grundy & Co worsted spinners of Bristol, employ 850 hands, mostly boys and girls A former woolsorter in that mill in a communication to the Gazette printed last week stated that journeymen woolsorters had been abolished in the mill a dozen years ago, and their places taken by children at cheaper wages We hold no brief for the correspondent but any one employed in Mr Grundy's mill knows whether the charge is true or not. It is none of our affair However, the printing of the communication seems to have touched a very tender spot as the Daily Dodger (gratuitous distribution) on Tuesday contained a column-and-a half interview with the superintendent of the mill wherein it was pointed out that there were sixteen foremen, assistant foremen, clerks, machinists, etc, in the establishment, among the 850 who received "fair wages" and who had been in the firms employ for 20 years and over In the whole column-and-a-half interview there is no information as to what has become of the woolsorters to whom journeymen's wages were formerly paid

Messrs Burton and Walters, the Washington Party progressive candidates for the Assembly, stand squarely on the platform adopted at the Republican State convention, and endorse the legislative programme to carry into effect the various planks of that magnificent progressive platform More than three-fourths of the Republican Candidates for the legislature have endorsed the programme of legislation throughout the State, and in counties where the Republican candidates have done this their names have been placed upon the Washington ticket The Bucks county Republican nominees, Messrs Pickering and Moyer, have refused to endorse their party platform, and thus assume the position of being opposed to the proposed legislation giving the people the right to express by ballot their choice of President and vote for United States, and United States Senators, and other progressive measures of great value to the people. Messrs. Burton and Walters are in accord with the sentiment of the Republican State platform and intend to represent Bucks county in the legislature will vote in favor of the proposed bills which will be presented at the next session.

HISTORY REPEATING ITSELF

History is repeating itself We are going through a crisis in which the issue is exactly the same as it was in two other epochs of our history

A reference to American past develops the fact that our people are thinking and speaking along exactly the same lines that they thought and spoke before the Revolutionary War and before the Civil War

The Revolutionary War was fought to destroy the system of industrial oppression that England's special interests fastened upon the American colonists The Civil War was fought to take control of our government and of our industrial system out of the hands of the slave and cotton interests The task of this generation is to destroy the control of big business over the conditions of life of America's men women and children

We are suffering from a false and vicious commercialism exactly as we suffered before the Revolution and before the Civil War It is the same old story The one arrogant spirit that says You toil and work and earn bread and I eat it has taken hold of America The Standard Trust the Oil Sugar, Express Tobacco Fuel, Railroad, Traction Harvesting Lighting and other trusts and corporations that supply people with necessaries are preying upon the public exactly as similar interests did in colonial and slavery days

Twice already in wars between Privilege and the people America's hostility toward industrial slavery has been demonstrated Before we can have better times it seems that we must once more teach big business that this is a civilized country dedicated to equality of opportunity and fraternity

Had Colonel Roosevelt been safeguarded half as much as he has been blackguarded no assassin would have been able to get within a block of him

The people have awakened to the fact that there is a purpose in government other than furnishing graft to politicians and special privileges to contributors of campaign funds

A vote for Oscar O Bean is a vote to put a representative in Congress who if elected, would disregard the wishes of Joe Grundy Hilborn Brooks of the desires of the voters of Bucks and Montgomery counties

The Washington party is well organized in practically every district in Bucks county and the most encouraging reports have been received by the county chairman One result is assured—the Republican ticket in this county is going to be swamped and the Grundy organization shattered to atoms

If the bullet had gone an inch to the left—

You know what even those men and newspapers who have been attacking Roosevelt most bitterly would have said They would have reviewed his long and brilliant public career They would have pointed out that he was admitted at home and abroad to be the greatest personality before the world They would have commented on his variety of interests and on his absorption in the problems of human betterment

And it would all have been literally and exactly true'

Today is the day of the broad minded far seeing right thinking person—and that is what constitutes the independent voter The success of the country depends upon the person who has courage enough to live up to his convictions and vote for the best man no matter what party standard he follows If it were not for the independent voter the success of the political parties would depend on the birth and death rate and hero would be no further need of a political campaign All honor then, to the independent voter And remember that the Progressive party, the Washington party in Pennsylvania, is simply a great union of independent voters

Funny Peasant Notions

The astronomical lore of the Russian peasantry of the north center and south of the empire is limited to a knowledge of the existence of the sun and the moon and stars, of three constellations, of the Milky way of one planet, of comets shooting stars and meteors The sun is to all a mysterious and beneficent being

The moon covered with ice and snow, is ever in flight from its brother, the sun Upon its disk is portrayed the murder of Abel by Cain the latter being done to death with a pitchfork The lunar rays are malignant and evil comes to those who sleep unprotected from them The horns of the moon afford information as to the weather

The stars are lamps or candles lighted and extinguished by the Eternal A shooting star is the soul of one just passed away Comets are heralds of war and famine No Russian ever forgets that the Napoleonic war followed the great comet of 1811—Exchange

The Largest of Their Kinds

The greatest bank in the world is the Bank of England the largest library is the National in Paris, containing nearly 3,000,000 volumes, the largest theater is the Paris Opera House covering three acres, the largest bronze statue is that of Peter the Great in St. Petersburg, weighing 1 100 tons, the biggest stone statue is in Japan, forty four feet high, the largest college is in Cairo with over 10,000 students and 310 teachers.

POLITICS ABSORBS THE COUNTY SEAT

Teachers Institute, However, Is Always An Attractive Feature.

Doylestown October 30
[illegible] the sole topic of discussion [illegible] days and as the day of election [illegible] closer party lines are [illegible] tighter and the life of the [illegible] over in the county seat is [illegible] for, not only are his [illegible] associates after him to [illegible] and receive the welcome [illegible] prodigal, but his Democratic friends [illegible] also laboring to convince him of the impropriety of his casting his lot with the [illegible] In spite of all [illegible] the pressure brought [illegible] part of Teddy's [illegible] the county seat are staunch [illegible] with many of them, the [illegible] are cajoled, threatened or persuaded [illegible] the firmer they become in the faith It is now considered by politicians of all stripes of political belief that the race for the Presidency lays between Roosevelt and Wilson and that the last three or four days before election will see enough changes to decide the battle There seems to be but little doubt of Wilson carrying Bucks county but the predictions as to his plurality are as far apart as they well can be to come anywhere within the bounds of reason As a natural sequence the whole Democratic state ticket will also carry the county but when it comes to the congressional fight the friends of all three of the candidates claim the county and none of them are at all modest in their claim for in no case is the county claimed by less than five hundred Some one is very much mistaken

The Republican party has the best and most complete organization and in better shape to speak with authority than either of the others, but then it would be bad policy not to make the claim even if they do not feel at all sure of it The Democrats have a sort of an organization but base their claim more on the reports received from the stickbinders they are sending out and who have covered the greater part of the county, while the Roosevelt party is only able to judge from the reports received from their adherents in the several districts

In the judgment of some of the older politicians It is going to be a very close fight and a very doubtful one at this time If Joe Grundy could be eliminated it would add greatly to his party's chance of victory for much of the opposition is to him and the boss system he represents

It is rumored at the county seat that none of the Taft men will vote for the Republican State ticket because the convention which nominated it was a Roosevelt convention and under the management and control of Bill Flinn, and they do not want to see him victorious at the polls They would much rather see the Democratic ticket elected because that would retire Flinn from leadership

At the county seat there will be some queer voting and the election boards are preparing for an all night session and are putting in several hours a day grumbling at the small compensation they will receive and it is safe to predict that the county seat vote will not be counted off before the wee small hours of the morning

This week all of the able and accomplished orators of the county seat are out every night making stump speeches that they hope will change the political complexion of the county for some years to come They have worked hard but this is the last week of it

Institute this year like some other things has been bigger and better than ever before and the fifty eighth annual teachers institute will long be remembered by all who attended it County Superintendent Hoffman set for himself a high standard of excellence and has left that standard a long way behind for this year, is said by teachers to be surpassed but just how he does it is his secret but with all the handicap of a Presidential year he has gotten together some of the finest educators of the country and has furnished a course of evening lectures and entertainments that has never been equaled He is an old bachelor, probably his own fault but with the aggregation of brains will and wisdom before him this year he will certainly become a benedict before another year rolls around for the schoolmarms are fairer and more alluring than ever this year and are loyally maintaining Bucks county's reputation for furnishing the best looking and smartest teachers in the state With all of these recommendations they naturally do not teach so very many years and new forces are rapidly crowding into the ranks The court house in these days of better facilities for reaching it and for the return home, has proved to be entirely too small to hold the crowds who wish to attend the evening entertainments and, in fact is also too small for the crowd during the day sessions, which shows that educational matters are receiving more consideration than ever before The teachers come here primarily to get valuable pointers that will aid them in their school work but institute is not in session all day and a good many if not all of them, have a pretty big time on the side But we won't give them away this time

The county seat has one street that usually figures in some way in any unpleasantness to put it mildly, that occurs here This time it is the small boy with the air rifle Several near serious accidents and many broken window panes are charged up to Hamilton street and its myriad small boys The police officers are unable to cope with the situation for while the complaints are numerous and frequent those complaining never furnish the officers with any names and as the officers are not numerous enough to stand guard over every house in the west end of the town the shooting continues and probably will until something serious happens and then everybody will know the boys with the guns It is the same old story, first the parents are to blame for furnishing the boys with the guns and second those who know of boys who make it a practice of shooting recklessly or with deliberate intention to do harm have no right to shield them

Last June fifteen boys over in the second ward erected a tent and decided to spend as long a time as possible under canvass They kept it up pretty nearly all summer and six of them are sticking to it yet and do not propose to quit all winter unless parental authority intervenes and puts an end to their sport They all say that they eat butter, sleep better and feel better as a result of their open air life Up to this time their fathers and mothers are also well pleased with their experiment.

The committee appointed at the last State Camp of the P O S of A met in Bristol last week and formed an organization It is their intention to erect a handsome shaft to commemorate the crossing of the Delaware at Taylorsville Washington's Crossing by the Continental army on the Christmas night just before the battle of Trenton, the turning point in the war of the revolution The monument will be erected near the point where General George Washington embarked on that historic night and will be a credit to the Order as well as a valuable permanent record of the spot

Bonus

"Bonus ought to be bonum," since it is evidently intended to mean "a good thing and therefore should be neuter not masculine The word is as found as early as 1773, but no one knows who was the ignorant or willful sinner against Latin that introduced it, though conjecture assigns it to the London Stock Exchange.

NORRISTOWN LETTER

Marked Contrasts Between the Roosevelt and Taft-Parties.

Norristown, October 30

One great achievement of the Washington party, here in Norristown at least, has been in bringing the public to have confidence in their ability to plan and do things about right.

In this campaign the people have been shown time after time the superior management of leaders in the Roosevelt movement over that of the older organizations

To begin with, the primary campaign was well carried out, Teddy himself being brought here This was the first time Norristown ever had a presidential candidate to appear within her borders After this early success came the banner raising of the real campaign The Republicans hoisted theirs into [illegible] announced in a perfunctory [illegible] way without ceremony of any kind. And ever since the people have been wondering why the presidential and vice presidential candidates' portraits are back to back as if not on speaking terms

In contrast to this was the banner raising of the "Bull Moosers" Not only was their banner equally handsome, but the nominees faced each other in a friendly sort of way, and the ceremony of raising it into position, which was shrewdly done on a Saturday night was fittingly accompanied by public speaking, red fire, cheers and music

Then last week came the two important rallies of the Washington and Republican parties on succeeding nights in the Grand Opera house The public has been commenting on the tremendous contrast ever since. The Republican affair occurred first with no attention paid to details or arrangements The announced reception in the "Green Room" to the distinguished speaker of the evening was entirely overlooked The stage was bare of decoration save for a single dingy American flag, a property room relic used years ago in "ten twenty, thirty" productions The chairs provided on the stage for the faithful were too numerous and many were vacant throughout the evening The floor was dirty and carpetless To partly hide these deficiencies the stage lights were turned low, making gloom predominant All that was needed was a funeral dirge to complete the realism

Then the speakers—the star was put first on the programme—a plan which resulted in half the audience leaving before the lesser lights were introduced Bean, the Congressional candidate, was apologized for by the chairman before he spoke, a palpable blunder Grundy's young man acted and spoke like a clerk is expected to

Hartranft the nominee for Assemblyman also made a poor impression, his weak tariff remarks being scarcely audible and ineffective The applause all through the proceedings was forced and spasmodic

The next night the Washington party people had their rally What a contrast!

Flags and bunting in profusion, plants and palms banked on the stage where were 200 chairs all occupied by the vice-presidents. The whole bathed in brilliancy and light

A daring innovation and one which aroused favorable comment was the offering of prayer by a local clergyman

Thomas K Ober, Jr., candidate for Congress was one of the first speakers and his statesman like appearance was remarked by all His speech was followed by an ovation

The local nominee for Assemblyman, John Rex, also made a most excellent showing.

Although following these two speakers, Gifford Pinchot spoke for over an hour, scarcely an auditor left the building The applause throughout the evening was deafening, its like never having been heard here before.

This event, while that of the preceding night was fresh in mind, with its wonderful enthusiasm has attracted many voters to the ranks of the Progressives the new followers arguing that a party capable of such achievements can safely be intrusted with the affairs of the nation

WHAT THEY THOUGHT OF COL. ROOSEVELT

Washington Post and Atlanta Constitution Paid Magnificent Tributes to the Retiring President.

The Gazette reprints here the observations of the Washington Post and by the paper owned by Clark Howell, Democratic National Committeeman for Georgia

Thirteen days from today the foremost man of his time will pass into private life after seven years of most varied official activities most of them historically important and all of them dramatic and exciting The striking individuality of Mr Roosevelt, his pioneership in a hundred different paths, his bold attacks upon long-established evils, his impregnable place in the hearts of the people—these facts, exhibited in a thousand and one lights during stormy encounters, have made him an ideal model and pattern for shoals of counterfeit 'reformers,' bogus crusaders, and base imitators The more Theodore Roosevelt was tested by fire and found to be pure gold the more eager were charlatans to imitate him A counterfeit is never counterfeited, it is the genuine which is followed by its spurious shadow

The esteem and gratitude of the American people will follow Mr Roosevelt to Africa, and all patriotic men will wish him thorough rest and recreation, in order that, in due time, he may return and devote his remarkable powers to the welfare of his country

THE RIGHTEOUS ROOSEVELT

Atlanta Constitution.

Mr Roosevelt will stand out, as intimated by the Washington Post, as a President in many respects unprecedented His achievement is not marred by one broken pledge His biographers, to date, are unable to find a single instance in which he employed wild promises to smooth his pathway to office Always he has striven at genuine evil and sought to effect genuine reforms No conscious or inadvertent hypocrisy cumbers his good name or shadows his political future

As much, sadly, cannot be said for some dozens of demagogues who as the Post patiently points out, have left a trail of ruin in their wake by attempting to imitate Roosevelt, but with cheapness and wretched judgment and palpable insincerity

Roosevelt goes back to private life, a man honored and respected and acclaimed by all civilization

Without Roosevelt's acumen or honesty, they endeavored to emulate his methods and his success. They had sufficient common shrewdness to sense the marvelous manner in which his brand of righteousness had laid hold on the popular heart Lacking his sincerity, lacking his grasp of details and generalities, lacking his supreme good sense and his cardinal honesty, they gave endless promissory notes to be redeemed in impossible performances

Easy.

"Woman must be independent," said the suffragette orator 'But the question is, How can we get the same wages that men do?"

Marry them and be on the job Saturday night" suggested a mean man in the audience —Exchange

Misunderstood.

'Before you were married he said he would go through fire and water for you didn't he?"

"I thought he did, but [illegible] now that I misunderstood [illegible] he must have said [illegible] at full Post.

LOCAL TROLLEY ITEMS.

Trolley traffic over the Neshaminy bridge at Croydon which has been suspended since early last July by reason of a court injunction is likely to be resumed within a few days Wednesday night the last of the new beams under the trolley were replaced so and the ties and rails were put in place that it would be possible to run the cars over the bridge yesterday If repairs to the other part of the bridge are practically complete it is likely the attorney for the County Commissioners, at whose application the injunction was granted by Judge Ryan, will move to have it vacated The suspension of traffic across the bridge has been a source of great inconvenience to the thousands of passengers between Philadelphia and Trenton as well as a serious hinderance to the operation of the Trenton Bristol and Philadelphia Street Railway Company.

As an instance of the inconvenience caused by the closing of the Neshaminy bridge to trolley traffic General Manager M J Hill of the T B & P Street Railway Co was compelled to refuse a special car to the Loyal Order of Moose lodge of Bristol, who wanted one for a trip to Frankford Tuesday night The reason was that the only cars on the other side of the bridge had been rented to the Junior O U A M and there was no way of getting another one across in face of the court injunction

General Manager M J Hill of the T B & P trolley lines has issued a warning to his motormen against the danger of wearing celluloid collars which are liable to catch fire from the blowing-out of the overhead circuit breaker A Philadelphia motorman was seriously burned the other day by such an occurrence.

Epworth League Social

The Epworth League of the Methodist church gave its annual masquerade social in the basement of the church last Monday evening in which about 200 persons participated mostly in costume

The room was decorated with corn stalks and pumpkins and a grotesque ghost stood without stretched hands ready to clutch its prey

In one corner was a tent cautiously the abode of some gypsy queen who had deserted it for a more profitable sphere of fortune telling

There were all kinds of games suitable to the occasion which were participated in by a large portion of those present.

Everybody seemed to be of one opinion and that was that the evening was the most enjoyable occasion they had had for a long time.

The Cause of the Panic

Editor Gazette Of the many representations being made in public at the present time is one the re ting the cause of the panic of 18

President Taft, John Wanamaker Joseph R Grundy and the Bristol Courier have all stated respectively that the hard times of that year the direct result of the passage of the so called Wilson Tariff Law

Now as that particular act did not become a law until August 18 it utterly absurd the above statements made by these equally eminent authorities must appear to an gent man

An appeal to reason and common senses is always in order and demands respect. An appeal to ignorance and prejudice is not justified under any circumstances It contemptible and an insult to whom it is intended to mislead

Mrs Wright was converted and united with the Lower Dublin Baptist church of Philadelphia, at the age of 18 After coming to Illinois she united with a Presbyterian church near them not far from Aledo She been a faithful Christian and lived to the ripe age of nearly 83 years She was naturally of a retiring disposition greatly devoted to her husband children and home

Over A Million Cards Mailed

The Washington Party, which is the Progressive Party in Pennsylvania is sending out this week to all the voters of the State a large souvenir postal card which contains a specimen ballot the platform of the three leading parties and an autograph message from Colonel Roosevelt

On previous occasions, certain overzealous Postmasters have taken it upon themselves to hold up mail they considered harmful to the interests of their particular candidate This is a condition that will no longer be tolerated The Postmaster is a servant of the people and he has no right to withhold any mail, but deliver it promptly to the patrons of his Office, and any Postmaster found so doing will have to answer to Washington for the offence

The Washington Party have taken precaution and have notified some twenty thousand of their friends throughout the State to see to it that they receive this special mailing card. They will in turn notify their friends so that it is estimated that 100,000 Roosevelt men in Pennsylvania will be on the lookout for this mail and see that it is not held up by any Postmaster Any person not receiving one of these souvenir postals can receive one by addressing W L McCullagh, Secretary of the Washington Executive Committee, 711 Highland Building, Pittsburgh, Pa

Who then is free? The wise man Who can govern himself.—Horace.

GRUNDY CHALLENGE QUICKLY ACCEPTED

Mr. Difenderfer Will Debate With Mill Owner's Representative

On Tuesday night Joseph R Grundy sent a challenge to Congressman Difenderfer to a debate in Grundy's mill yard, before the latter's mill employes, on the questions of the campaign

Mr Grundy in his challenge specified that his end of the discussion would be handled by Major Inn Wood, president of the National Association of Wool Manufacturers

Mr Difenderfer has promptly accepted the invitation under the following conditions That he will enter the debate with Oscar O Bean Mr Grundy's personal candidate for Congress who is opposing Mr Difenderfer and the discussion to take place in any public hall where the people in general may have the benefit

It is hardly probable that Mr Grundy will accept the straightforward proposition

Mr and Mrs. Edwin Banes, of Germantown entertained at their summer home, Camp Little Smoker at Cornwells, last Friday evening in honor of their twenty-fourth wedding anniversary A delightful evening was spent. Music was furnished by Edwin Banes, Jr The dining table was beautifully decorated with carnations and chrysanthemums The guests were Mr and Mrs. John Banes, Mr and Mrs. Casper Banes Mr. and Mrs George Sipler, Edwin Banes, Jr, Mrs Laura Banes, Miss Edith Banes and Miss Irene Banes

POLITICAL DRIFT

The Campaign in County, State and Nation--Political News from the Camps of the Three Armies.

A monster mass meeting was held at on Wednesday evening will probably the biggest political demonstration ever witnessed through Odd Fellows hall to the doors and several failed to gain admittance

The parade previous to the meeting were made by Messrs Walters, the Washington Congressional es Mr a colored ard date A meeting was minster and at Yardley and held at the speakers were conveyed between the two in automobiles The Yardley was also a huge success

Much attention has been directed by Grundy's foreign speakers to a period during Cleveland's administration when organized society looked after the wants of the poor in Bristol during these piping times of prosperity this borough has a well organized and active Public Welfare Association which has adopted methods of raising funds to relieve distress in Bristol

On Wednesday evening before the Republican meeting at the Colonial Theatre the band serenaded the Taft Club on Radcliffe street The appropriate air that was played was the one that means the sweet strain of Darling I am growing old and life is fading fast

The meeting the theatre, however was well attended all of the seats being occupied Major Wood, president of association wearied the audience with a dry tariff talk Billy Schaffer supreme court reporter who draws a salary from the state out of all proportion to the services rendered furnished the oratorical embellishment but failed to get off his oft repeated jest about the that made Joe Grundy a daisy

Howard Jones Esq whose Democracy pulled off a few years ago preached straight Republicanism like one the manner born Charles Scott cashier of the Farmers National Bank, was chairman of the meeting

A straw vote was taken at the meeting of Bristol Division Sons of Temperance last Friday evening with the following result Roosevelt, 23 Wilson 4 Taft 4 Debs 1

One of the greatest political meetings and demonstrations in the history of Morrisville was held last Friday night when eight hundred people crowded into Stockham hall and three hundred were unable to gain admittance Of course it was a Bull Moose meeting Messrs Ober Burton Walters and Young spoke to a most enthusiastic audience An immense parade was held previous to the meeting

A crowd filled Riverside Theatre, Bristol on Tuesday evening to listen to the speakers of the democratic meeting Franklin Peirce of New York Henry Grim Esq, of Perkasie Congressman Difenderfer and Rev W F Johnston, of Bristol were the principal speakers Mr Grim devoted his attention principally to Oscar O Bean, Grundy's office boy candidate for Congress Mr Johnston appeared on the platform solely in defence of Congressman Difenderfer who has been the victim of some scurrilous attacks The reverend gentleman certainly tore things loose and paid his compliments to the Grundy organization His remarks were greeted with tremendous applause

James R Pollock, of the Pollock Huston Co big textile manufacturers, of Philadelphia who a few years ago addressed the graduating class of the Bristol high school, is one of the most ardent Roosevelt supporters among the Union League membership

In a straw vote taken on Monday in the Robertson Art Tile Works at Morrisville the result was Roosevelt 46 Taft 11 Wilson 7.

Blooming Glen held one of its old time political meetings in Kriebel's large hall on Tuesday evening It was an earnest Roosevelt Johnson gathering This meeting refuted the claims of the Taft followers in Hilltown who are rapidly taking to the woods it is Roosevelt now A significant fact was evident that the splendid audience was in an earnest, receptive spirit it came to learn, to be convinced Every speaker discussed the issues fairly and squarely and gave convincing arguments right from the start They gave the voters some facts worth while to consider and digest at their homes

Dr Anthony F Myers acted as chairman of the meeting He introduced as the first speaker Russell Burton William P Young Esq followed and held the audience spellbound for an hour As he concluded Messrs Henry G Walters and Thomas K Ober appeared having been brought from the Perkasie meeting by Messrs Burton and Young back to the Perkasie meeting Never did political speakers have a more eager and receptive audience they were heartily applauded for their earnest efforts

The Attack Upon Roosevelt.

The following leading editorial is from the New York Times, one of the most consistent opponents of Theodore Roosevelt for the Presidential election The editorial appeared shortly after the attack upon Mr Roosevelt in Milwaukee

Only the exceptional man, the extraordinary man can offer to the world such an exhibition of fortitude as Theodore Roosevelt gave when, suffering from a serious hurt—no one knew how serious it might be—and against the protest of his physician and the entreaties of his friends, he insisted upon making his speech at Milwaukee Monday evening But it was characteristic Mr Roosevelt showed the indomitable courage, or to use the word that he would be almost certain to use the grit that is ingrained in his being Upon most men the effect of a bullet wound, even of a wound much slighter than that received by Mr Roosevelt, is immediate disablement We must to the old of battle, where in the excitement men fight on unaware of serious injuries for a parallel to what Mr Roosevelt did at Milwaukee To tan of personal and physical heroism are common upon the battlefield but probably the history of politics affords no example of it worthy to be compared with this It was rash it was an act of hardihood, we may say even that it was an act of folly that was characteristic and the nt of the country Certainly it was magnificent Certainly it would have been more prudent for Mr Roosevelt to abandon all idea of addressing an audience, and to put himself in the hands of surgeon That however would not have been like Mr Roosevelt Peril does not prudence to him, it arouses all his unflinching courage

The country's admiration for his will be mingled with heartfelt rejoicing that as now appears, the wound is one from which his recovery should be prompt It was the narrowest of escapes The bullet accident of a giving the bullet another direction, would have at once end the great career of this distinguished man The country has reason for profound gratitude that another illustrious name has not been added to the number of our public men who have fallen by the assassin's hand The prayers and the sympathy of his countrymen will attend ex-President Roosevelt in his days of enforced retirement from the activities of his campaign and their rejoicing at his complete recovery will be profound."

"THE PARTING OF THE WAYS"

Speech of Henry J. Allen, of Kansas, Announcing the Parting of the Ways Between the Progressives of the Great Republican States and the Taft Machine-Controlled Convention

The announcement of the "parting of the ways" was made June — at Chicago on behalf of the Roosevelt delegates by Henry J Allen, delegate at-large from Kansas Mr Allen was accorded the convention floor by Chairman Root immediately after the latter had been made permanent chairman

THE PERMANENT CHAIRMAN (Mr Root)—Gentlemen of the convention, I thank you my friends, from the bottom of my heart The first act that I shall do as permanent chairman of this convention is to ask your unanimous consent that the delegate from the State of Kansas our Republican brother Henry J Allen may have permission to make a statement to the convention Is there objection? The chair hears none Consent is given, and the chair presents to you Mr Allen

Mr Allen then said

Mr Chairman, ladies and gentlemen, and fellow citizens The statement I am going to make was due on the programme at the conclusion of the report of the committee on credentials and it was the arrangement between the chairman and myself that I should be recognized at that time

"I merely make this explanation because in the subject of my remarks I am going back to the report of the committee on credentials and I wish to covenant with you in respect to this matter that if you will give me ten minutes of quiet attention I will promise to give you no more trouble in the convention if I ever did give you any trouble in the convention

If you will be quiet while I present the attitude of the Progressives of this convention then I pledge you that no effort will be made during the remainder of this convention to put any sand in the gasoline or to do any mischief whatever to your spark plug After I have concluded this statement you can go as far as you like

The first thing that I desire permission to read to you is a statement which has just been placed within my hands from the Hon Theodore Roosevelt (Prolonged demonstration)

Mr Allen then read Col Roosevelt s statement and proceeded with his own speech as follows

We have reached a point where a majority of the Roosevelt delegates feel that they cannot longer share in the responsibility for the acts of this convention We have contended with you until we have exhausted every parliamentary privilege in an effort to have placed on the roll the names of men legally elected

"When, by using the votes of the delegates whose rights to sit in this convention are challenged you took a position which places the power of a political committee above the authority of 77 000 majority elected in a legal primary in California, we decided that your steam roller had exceeded the speed limit Since then we have asked for no roll call You have now completed the seating of all delegates, using the votes of the contested delegates to accomplish your purpose

We can not in justice to ourselves, share the responsibility of a convention which has said to Ohio—the home of President Taft—that a majority of 47,000 voters obtained in a legal primary election, must stand aside for the political dictum of a national committeeman discarded by that same majority

"We can not become parties with you in a declaration to Pennsylvania that a defeated committeeman, seated in an obscure room of this building may nullify the 130 000 majority by which Pennsylvania gave expression of her wishes

We will not put ourselves in a position to be bound by any act in which you say to the majority who rejected Mr Taft in New Jersey, to the majority who rejected him in Wisconsin, to the majority who rejected him in Minnesota to the majority who rejected him in Maine to the majority who rejected him in Maryland, to the majority in South Dakota, which gave him only 1 500 votes out of 59 000 to the majority which rejected him in Nebraska, in Oregon, Kansas, Oklahoma, West Virginia and North Carolina, that all these added together went down under the mere ruling of a political committee

"We will not join you in saying to the home state of Abraham Lincoln, that the majority, with which we defeated Mr Taft and his managers in Illinois, was overruled by those very managers with the consent of those who have arrogated powers never intended to be theirs

Mr Payne sought to question the Republicanism of these great Republican States yesterday Until he can show a better record than is shown by the results of his type of conservative leadership he is estopped, from criticism When Theodore Roosevelt left the White House four years ago he left you an overwhelming majority in both branches of Congress he left you an overwhelming majority in all the great Republican States, he left you a record on which you could elect Mr Taft, he left you a progressive programme to carry forward That programme was buried beneath an avalanche of words at Winona and 16 Republican governors were buried beneath an avalanche of votes which rebuked recreancy to party pledges

"A big majority in the lower house gave way to Democrats and in the Senate was reduced to a mere majority So much for your conservative leadership, Mr Payne

We will not participate with you in completing the scuttling of the ship We will not say to the young men of the Nation, who, reading political history with their patriotism long to catch step with the party of their fathers that we have nothing better to offer them at this hour than this new declaration of human rights that a discarded political committee as its last act, holds greater power than a majority of over two million voters

We do not bolt We merely insist that you, not we, are making the record And we refuse to be bound by it We have pleaded with you for ten days We have fought with you five days for a square deal"

We fight no more We plead no longer We shall sit in protest and the people who sent us here shall judge us

"You accuse us of being radical Gentlemen, let me tell you that no radical in the ranks of radicalism ever did so radical a thing as to come to a national convention of the great Republican party and secure through fraud the nomination of a man that they know could not be elected

Will This Enterprise Cease?

Marvelous Cures

Are Being Made by the Great Atomo-Radio Treatment

The Physician of the Radio Institute Will Make His Regular Weekly Visit to Bristol—See Him at the Hotel Closson, on Thursday, November 7th.

Walks Without Crutches, Read What a Well-Known Bucks County Man Says About His Future Since Commencing the Great Radio Treatment, Cancels the Doctor o[rder] Coming Parly and date for Operation, Can Give Donation and Crutches, Now Walks Without Them Consequently Give All Examination Will be Given Free This Thursday, November 7th.

TREATING WITH RADIO

Mr John Koch, of Buckingham Pa, regarding his condition says On September 18th I went to the doctors who represent the Atomo Radio Institute, of Easton, and who are now visiting at Doylestown and Bristol, and asked if they could do anything for me. For a long time I had been compelled to walk around on crutches, as I was suffering from a condition that some thought was rheumatism, but which was diagnosed by the doctors as a spinal condition I can truthfully say that after eight treatments I can discense with my crutches, and walk better than I have for many months I am grateful to the doctors, and cannot recommend them too highly I will answer any questions that any sufferer from chronic disease may choose to ask me "

(Signed) JOHN KOCH

Thousands upon Thousands of women suffer continual misery, even ruining pain day after day, month in and month out, for years—keeping about the daily duties through sheer force will, enduring patiently and silently, with the true spirit of the martyr simply because through lack of knowledge they do not know where in the world there is any help for them, and believe that daily misery is their portion—that there is nothing for them but to endure

Oh if they have gained any knowledge in the matters from the experience of others they are frozen in horror with the thought, and live in constant fear for all dread an operation which they have seen in others from their life of agony—an operation which is separate from the misery and pain, that is, if possible worse than their life of misery and pain

WOMAN'S SALVATION IS HERE! The majority of the diseases peculiar to women can be completely benefited and cured by the timely application of this the wonderful ATOMO RADIO FORCE

NO NEED OF THE KNIFE Positive and prompt cure The ATOMO RADIO treatments are the most positive in prompt relief and cure of Uterine and Ovarian inflammation, Fibroid and Ovarian Tumors (without pain or operation Misplacements, Hemorrhage, Fibroid and Ovarian Tumors (without pain or operation Misplacements, Menstrual Irregularities, Backache Prolapsus Painful Menstruation, Pains, Bearing Down Sensations, Irregularities, Backache Prolapsus Painful Menstruation, and all natural and wasting discharges Piles Fistula and Chronic Constipation

Cured of Female Troubles

Easton, Pa, January 3, 1912.

"I was unable to go up and down stairs, and was so weak that I could hardly walk Two different doctors after examining me told me I would have to go to the hospital immediately for an operation for female trouble The same day a friend told me of the Atomo Radio Institute, and my husband had me go there for an examination. After I had been examined by the Atomoscope, the physician told me there was no need of an operation, and I commenced treatment at the Institute I was benefited from the first treatment, and am now able to do all my housework, washing, etc, and have gained in weight from 108 to 128 pounds I have a good appetite, sleep well and am entirely cured in every respect "

(Signed) MRS W SNYDER
43 North Fifth Street

Cured of Paralysis

Mr D A Schooley, of Bangor, Pa, called at the office of the Atomo Radio Institute, Friday, February 16, suffering from Sensory Paralysis of the left leg. There was absolutely no sensation and he feared that he would soon have no use of the limb All these treatments of various kinds had given no results At the solicitation of his friends he finally decided to visit their Institute, he finally decided to visit their office The result was little more than four treatments is told below:

"I commenced treatment at the Institute, Feb 12th he has been taking treatment from the physicians of the Atomo Radio Institute for Sensory Paralysis of the left leg Various forms of electricity had been used prior to my consultation at the Institute, but without securing results

"I cannot speak too highly of the form of treatment, as in a little over a month's time all sensation has returned to the limb I am well pleased with the progress made in the treatment of both my wife and myself, and will be only too glad to answer any inquiries made relative to the treatments

(Signed) D A SCHOOLEY

The Consulting Physician of the Institute, Dr F W Cartwright, can be consulted free of charge in regard to any of the above troubles, at the

Hotel Closson, Bristol, Thursday, Nov. 7, 9 a. m. to 8 p. m.

BULLETS IN BATTLE

Death Wounds and Flesh Wounds and the Feeling When Struck.

In serving the Republic General Nelson A Miles says that, like every other soldier who has seen much active service he is often asked how it feels to be wounded He himself was wounded four times and twice almost fatally so he is able to speak from experience He says:

"It is often asked how it seems to be wounded in battle The flight of a bullet is quicker than thought and has passed through a flesh wound before one knows that he has been struck I have seen bodies of men dead on the field of battle where the brain had been pierced and death had been instantaneous. They would remain in every position of the manual of arms with an anxious look, a frown or a smile on their cold and rigid faces

"My wounds received at Fair Oaks, Fredericksburg and Petersburg were flesh wounds and disabled me but a short time While riding down the line at Chancellorsville one of the enemy's bullets struck my metallic belt plate with great force This caused a slight deviation as it entered the body The result was an instant deathly sickening sensation My sword dropped from my right hand, my scabbard and belt dropped to the left I was completely paralyzed below the waist. My horse seemed to realize what had occurred He stopped, turned and walked slowly back, I holding to the pommel of the saddle with my hands We soon reached a group of soldiers, who took me off and, placing me in a blanket carried me to the Chancellorsville House and pulled a dead man off a couch to make room for me "

TOOK HIS TIME.

Bill Gave the Old Man a Long Wait For the Backlog

Skipper Norwood was born in a little Nova Scotia town During the long winter evenings young Bill used to lie out in front of the big open fireplace, and just about the time he had got warm and comfortable and a little drowsy Norwood senior would make up his mind the fire was getting low and send his son out into the snow to bring in a backlog from the wood pile Eventually these nocturnal pilgrimages got on young Bill's nerves, and one night when his father sent him out after the backlog the son continued on past the wood pile and across country to the nearest seaport, where he shipped on a whaler

Nine years later Bill came back It was a bitter winter night, and the snow was falling Bill sneaked up to the window and looked into the old sitting room The fire was burning in the old fireplace and Bill's father and mother were seated in front of it. He noticed that the fire was a trifle low So he went to the wood pile, selected a big backlog carried it into the house and placed it for a moment by the fire with the log on his shoulder

Father said Bill, "I've brought in that backlog you sent me after"

The old man never budged an inch Instead he spat into the fire and retorted testily

Set it on the fire. You've been a long while gittin' it!"—Saturday Evening Post.

The Drug Clerk's Caller.

"A man came in yesterday and wanted something we didn't have He had been looking into the window, and he must have thought this was a book store just because we were advertising some books and stationery and dictionaries and a lot of that left over junk Well anyhow, he came to me and he says says he, 'I want Lincoln's Gettysburg address'

"'Look for it yourself, sir,' says I 'There's where we've taught to do There's a directory over there in the corner But I don't think you'll find it These directories only have the subscribers city addresses'

"Well say that fellow was so mad he wouldn't call me names But that just shows you what us drug clerks have got to put up with"—Cleveland Plain Dealer

Coal Bin Measurements.

A solid cubic foot of anthracite coal weighs about three pounds When broken for use it weighs about fifty four pounds Bituminous coal when broken up for use weighs about fifty pounds The convenient rule for the approximate measurement of coal in a bin or box is to multiply the length in feet by the height in feet and again by the breadth in feet and this result by fifty four for anthracite coal or by fifty for bituminous coal The result will equal the number of pounds, and to find the number of tons divide by 2,000—Popular Mechanics

The Obliging Friend

"A choice indeed! When I do make a choice you can rest assured that it will not interest you!"

"Thanks! I'll tell Grigge."—Exchange

White law ends tyranny begins.—William Pitt

Ether.

Ether was known to the earliest chemists Nitric ether was discovered by Kunkel in 1681 and muriatic ether, from the chloride of tin, in 1759, by Courtanvaux Acetic ether was first prepared by Gay Lussac. The benefit sent discovery that ether is capable of rendering the insensible to pain is due to Dr Jackson and Morton, who about the year 1846, introduced it into the practice of surgery Some claim that as between the two men the honors are about easy Apart from the blessedness of the discovery of anaesthesia it is impossible to estimate the value of the discovery to surgery as a science It enables the delicate operation that would otherwise be impossible—New York American

A Point of Law.

"Do you see that man over there?" The world famous detective spoke in a low whisper and his friend looked quickly around scenting a mystery

"Yes he replied, just as cautiously "Well, he's a professional forger"

"Then why don't you arrest him?" asked the friend in surprise

The world famous detective grinned aggravatingly

"Can't," he said briefly. "It's not breaking the law to make horseshoes"—London Answers.

Bit by Bit.

"Dashington seems to have finally made a conquest of the Seadmore girl Wonder how it all came about?"

"The first time she saw him she gave him her eye the next time they met she gave him her arm, it wasn't long before he was holding both of her hands, soon after that he won her heart, and she lost her head, and gave herself to him completely."

Wife of the Papuans.

The Papuans have no metals and no pottery. "The people at Parkmau have a small piece of iron about the size of a chisel, used for carving their canoes and paddles, for which the enormous price of three dogs had been paid, so they informed us, to the people of Wakatimi," says A. F. R. Wollaston in his "Pygmies and Papuans." The Papuan dogs, by the way, never bark, "but they make up for this defect by their extraordinary power of howling," as if carried away by an ecstasy of sorrow. The Tapiro pygmies carry their knives, the flint implements of prehistoric man, in a skillfully netted bag worked in a figure of eight stitch and use the sharp flakes not only for cutting purposes, but for scraping down the wood of their bows and for pointing and ornamenting their arrows. They carry about with them also a sleeping mat fabricated by a woman out of pandanus leaves, some tobacco, which they smoke in a cylinder of bamboo, and their apparatus for fire making—the split stick, the coiled rattan and the tinder.

Caught at Last.

To bring about the victory of good over evil has been assumed to be the especial aim of saints and sages, but savages, it seems, may sometimes be militant in the same cause. In his book, "The White Waterfall," Mr. James Francis Dwyer relates the story of a missionary who preached to a tribe of blacks in northern Queensland and told them in simple language of Adam and Eve and their expulsion from the Garden of Eden. The episode of the serpent much excited the converts, and when the missionary arrived at the blacks' camp on the following day the natives had collected half a hundred or more snakes, which they brought out for the good man's inspection.

"But why do you want me to examine them?" asked the parson, puzzled

The chief of the tribe winked knowingly.

"You tell 'em if old snake here that mak 'em plenty trouble, Mr Adam," he said grinning "We think 'em you find dat old feller with this lot."

Trouble and Worry.

Wait till trouble comes before worrying about it If you worry before it comes it may never come at all and you will have lost health and spirits over a phantom

Duty puts a clear sky over every man into which the skylark of happiness always goes singing—Prentice.

RUN-DOWN PEOPLE

Made Strong by Vinol.

Run-down conditions are caused by overwork, worry, too close confinement, a chronic cough or cold which it is difficult to cure.

We want to say to every person in this condition—you need Vinol, our delicious cod liver and iron tonic without oil, the great strength creator It will supply iron to the blood in the most easily assimilated form, create a good, healthy appetite, strengthen your digestive organs and make you eat better sleep better and feel better.

A case has just come to our attention from West Scranton, Pa, Mrs. Chas Proper says. "For three years I was all run down, weak and had no appetite, and after all that time I am glad to say Vinol has brought back my health and strength, which is just what I was told it would do"

We are confident that Vinol is the best body-builder and strength-creator we have ever sold

Try a bottle on our guarantee to refund your money if it fails to benefit you.

The Great Bell Army

To render the greatest measure of good service an army must have organization and discipline, and be filled with a spirit of loyalty and enthusiasm

The great Bell army—130,000 strong—is a body of men and women whose purpose is to render GOOD SERVICE, an army of such proportions that, marching ten abreast it would take six hours to pass in review

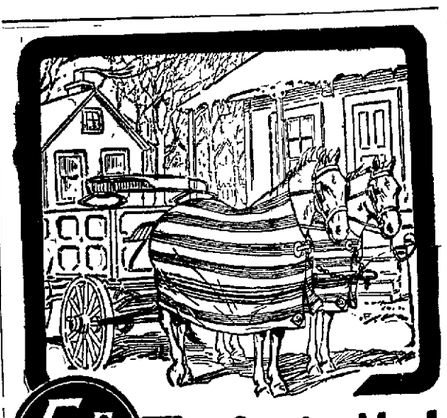

The Bell operators forming by far the greatest part of this army, are trained to perform their duties in accordance with Bell standard operating methods—methods which insure the prompt and courteous handling of every telephone call, everywhere.

Then there are the men who are constantly at work on the lines and equipment, maintaining the high efficiency of the telephone plant. "Trouble" on a line is often discovered and corrected without the subscriber being aware that anything has been amiss.

The men who install the Bell Telephone in your home or office also have standard methods to guide them—so that the equipment may be installed in a most satisfactory manner.

Our employees, in that they are human, are liable to mistakes at times. We are ready and anxious to hear about any such inconveniences—and we welcome your intelligent criticism so that we may do all in our power to correct them Please make your complaints specific.

5A The Quality Mark On Horse Blankets

5A on a horse blanket is the sign of quality—the guarantee of satisfaction. It means the entire blanket—yarns, straps buckles, everything—was made in one factory—the largest in the world That factory gives you blankets of the best quality at the lowest prices. 5A Blankets go direct from factory to your dealer's shelves. You pay no jobbers' commissions, yet you see and handle the blankets before you buy.

5A Blankets wear the longest. The hard twisted yarns, the multiple warps and the experienced workmanship combine to make 5A Blankets the strongest, warmest, thickest and closest woven blankets made.

The 5A Storm King is our most popular medium-priced square blanket. It is exceedingly warm, heavy, thick and strong. Outwears several ordinary blankets. Weighs 8 lbs Measures 84 x 90 inches. Costs but $2.50. Easily worth three times as much

Buy a 5A Square Blanket for street use Buy 5A Bias Girth Blanket for stable use.
